### New Session for Bond Refunding Is Expected Nov. 1st

**Only 2 Million of 146 Million Offered Under Present Plan**

**BELIEVED FAILURE**

**Joint Legislative Committee Added to Group Seeking Compromise**

**LITTLE ROCK — (AP) —** One regular and two special legislative sessions have come and gone since state revenues slumped in 1931, but bond refunding is still the major problem of the state.

A final solution of it is the aim of the Futrell administration, and to that end all its efforts are now being exerted.

Although the recent special session had no authority to consider refunding matters, both branches discussed its various phases at times with such effect as to open the way for the next special session authoritative sources believe will be called by November 1.

The refunding question was the paramount topic at the 1932 special session and at the regular legislative session last spring, a refunding act having been passed by each body.

Under the 1932 refunding act, the state sought to exchange refunding bonds with the holders of old road district bonds which aggregate \$47,000,000. Approximately \$15,000,000 of the old road district bonds had been exchanged for refunding when the Futrell administration came into power in January of this year.

**Present Plan Has Failed**  
Governor Futrell, prior to his inauguration, named a committee which drafted and pushed through the legislature the present Ellis act, under which all the state highway indebtedness—amounting to \$146,000,000—was to be refunded. Only about \$2,000,000 of bonds have been sent in for exchange under the Ellis act, giving rise to statements by members of the governor's committee that some other plan should be tried.

Accordingly, the Ellis bond refunding committee was called forth from retirement, and negotiations started with representatives of the bondholders Protective Committee of New York, and subsequently with representatives of holders of all classes of indebtedness.

The last step in the program to effect a new agreement was the naming of a joint legislative committee last week which will augment the governor's committee.

**To Inform Legislature**  
This was done to place legislative representatives in touch with the situation, so that when the final draft of the bill to embody the new refunding agreement is finished, they can circulate among their colleagues.

The new program, as tentatively outlined, calls for concessions on the part of bondholders and the state. The latter are to agree to take whatever interest the revenues will permit, and to postpone maturities until the state is able to resume amortization of its debt. The state would agree to furnish some additional revenues through raising the automobile license fees on new cars, and by taking one-half of the present county turnback fund.

The latter provision was originally incorporated in the Ellis plan, but the legislature refused to disturb the county turnback after having lowered automobile license fees.

### U. S. Treasury to Reorganize Cuba

**Financial Expert Will Accompany New Ambassador to Havana**

**WASHINGTON—(AP)—**The administration plans to send a Treasury official to aid Jefferson Caffery, new ambassador, in studying the republic's financial problems instead of sending a commission of economic and financial experts.

Caffery goes to Havana the middle of next month to relieve Summer Welles, the present ambassador.

Who the Treasury's representative will be has not been decided.

**Menocal a Candidate**

**HAVANA, Cuba — (AP) —** General Mario G. Menocal, twice president of Cuba, announced Saturday that he is "carrying the Conservative party's banner" in the forthcoming election, which is generally interpreted as meaning that he is a candidate for the presidency.

## McKnight's Life Hangs in Balance; Deep Knife Wound

**42-Year-Old Ozan Farmer Putting Up Brave Fight**

**BROTHERS IN JAIL**

**John and Jess Thornton Held, and Lee Patterson Is Sought**

Marcus McKnight, 42-year-old farmer of near Ozan, was putting up a brave fight for his life Saturday, following an attack upon him by two men, which officers say was precipitated by drinking too much corn liquor.

McKnight is suffering from a deep knife wound that started at the top of the right hip and reached nearly across his back, and injuries about the head inflicted with a pitch fork.

**Two in Jail**

Two brothers are held in jail. They are John and Jess Thornton of near Ozan. Another man who was said by officers to have accompanied the Thornton brothers and witnessed the attack, is sought. He is Lee Patterson, also of that community. From what officers say Patterson apparently did not participate in the actual attack upon McKnight.

The trouble occurred on the McKnight farm, a mile and a half east of Ozan Thursday afternoon. McKnight and a negro farm hand were in a field cutting and raking hay when the Thornton brothers, accompanied by Patterson, appeared. Officers asserted they had been drinking.

The three, it was said by officers, threatened the negro's life. McKnight resented the threats. He ordered the three away. A quarrel started. It led into a fight between McKnight and one of the brothers.

While McKnight and one of the Thorntons were scuffling on the ground, the other brother joined in the attack, according to officers. The negro took no part in the fight, it was said.

**Obtain Medical Aid**

Later it was said by officers, that the Thorntons went to McCaskill to get medical attention. En route back to Ozan they abandoned their automobile on the highway and headed across a field. Constable Bob Carrigan soon came upon the parked automobile and immediately recognized it as Thornton's. Later he arrested the two at their home.

Physicians from McCaskill, Ozan and Hope, are aiding McKnight in his attempt to stave off death. He is married and has a large family.

## Toll of Atlantic Coast Storm

**TOP—**The wreck of the Crescent Limited, derailed by a weakened bridge over the Anacostia river just outside of Washington, D. C., at 3:45 o'clock Thursday morning. Two engineers were killed and 13 passengers and members of the train crew were injured. The Crescent was en route from New York to Atlanta and New Orleans.

**BOTTOM—**A rope and a slippery oil barrel between him and death—this was the scene witnessed by hundreds of horrified Philadelphians when Thomas Williams fell into the turbulent Schuylkill river and fought frantically to save himself from the onrushing stream. This picture was taken an instant before Williams reached for the rope—and missed. He tried again but failed. The barrel now out of reach, and too tired to make another effort, Williams threw up his arms and was swept onward to his death. This photo of the tragic drama was made by William F. Springfield of NEA Service and Acme Newspictures.

## A. & M. President Addresses Kiwanis

**Low Cost of Attendance Stressed by Charles A. Overstreet**

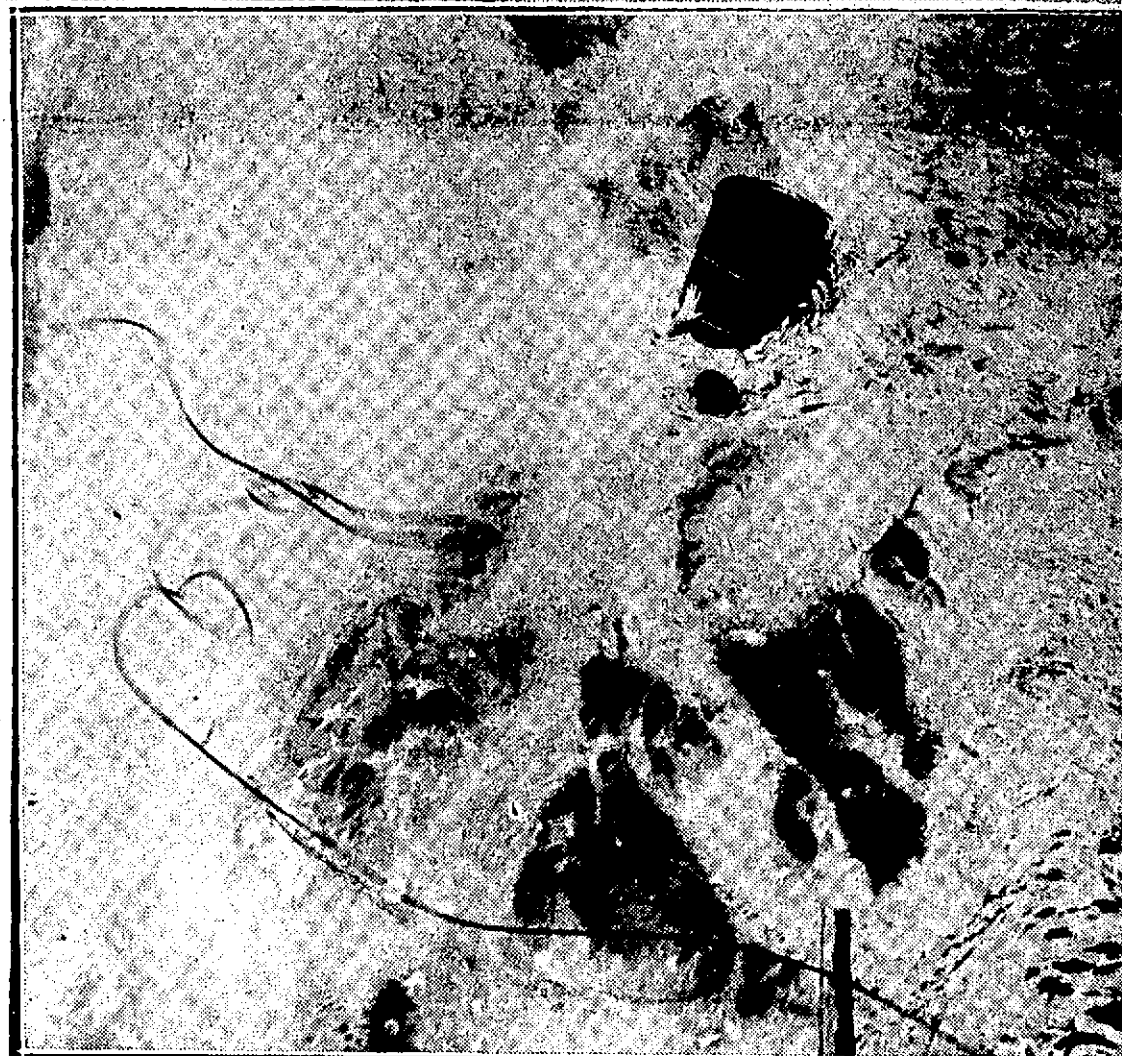

"A college should provide an opportunity for students to acquire an education within their ability to pay," said Charles A. Overstreet, president of the A. & M. College, at a program on education of the Kiwanis Club Friday night, in the New Capital dining room.

"Your college at Magnolia offers two years of college work, completion of which secures as high a rating for transferring of credits to senior colleges as the state university, or any other college. And it provides the opportunity for students to acquire that education at a very reasonable cost."

"There has been some criticism of the policy of the state in maintaining four district A. & M. colleges," Mr. Overstreet said, "but we feel that as long as we are providing the present type of education, at the low cost to students, and to the state, and that there will be no danger of suspension of the schools. As long as we are rendering a service to students, at a reasonable cost of acquiring two years of college credit, the A. & M. college at Magnolia will grow in usefulness, and will be maintained."

"Hope had a chance to land the college, before Magnolia was decided upon, someone mentioned earlier in the evening," Mr. Overstreet said.

"However, let me assure you that the college was located there by W. R. Cross, father of your own club member, G. T. Cross, and knowing him as I did, Hope, nor any other town had a chance to secure the school, against

## Biggest Melon of Year Brought In

**133-Pounder Shown in Hope by O. D. Middlebrooks**

Mr. Middlebrooks grew the champion heavy-weight three years ago, a Triumph melon weighing 164 1/2 pounds. The melon he brought to Hope Saturday will be crated and sent to E. S. Kent, of New York city, a former Hempstead county man and a close friend of the Middlebrooks.

Mr. Middlebrooks said he had several other large melons growing but expressed doubt as to whether they would come within range of the champion.

## Hope Council Is To Debate Natatorium Project on Monday

**Moral Endorsement All That Is Necessary—No Debt Entanglement**

**WATER MAINS' AID**

**Sandefur to Prepare Estimate on Direct City-U. S. Proposal**

Following the report of Hope's natatorium committee to an informal meeting of the city council Friday night, a special meeting of the mayor and council was announced for Monday night, when the natatorium project will be up for endorsement by the city.

Mayor Ruff Boyett and one of the aldermen were out of the city Friday and could not be reached. The seven aldermen present Friday night expressed the unofficial opinion that the city government would be unanimously in favor of the natatorium project on the basis of facts brought back from Little Rock by the special committee.

W. S. Atkins, city attorney, member of the special committee, presided over the informal council session. Aldermen W. A. Lewis and L. A. Keith, also committee members, were present, together with A. H. Washburn, who was committee spokesman at the committee's hearing before the U. S. Public Works Advisory Board in Little Rock Thursday.

**Two Types of Projects**  
He reported that the federal government is advancing money for two distinct types of city projects:

1. Revenue or self-liquidating projects, such as the natatorium, in which the federal government looks primarily to the natatorium for its return, and does not hold the city government liable either directly or indirectly.

2. Tax projects, such as public buildings, waterworks and sewers. The speaker quoted the Arkansas Advisory Board as saying that the federal government contributes 30 per cent of the labor and material cost on both classes of projects, and loans the balance of the total cost for 25 years at 4 per cent.

But where the loaned balance stands against the taxpayers in the case of non-revenue projects, in the case of projects like a swimming pool, it is secured only by the revenues—and the city's credit is not touched.

**City Attorney Speaks**  
City Attorney Atkins told the aldermen:

"The government is spending this money—and all it asks is that we pick the projects on which the money is to be spent."

"Legally the council has no more standing in the eyes of the Public Works Administration than any other civic body, such as the Rotary or Kiwanis club. Any group of citizens could go out and organize a non-profit corporation and obtain a federal loan to build a natatorium, if their plans appeared feasible to the government."

"The city is merely asked to give its moral endorsement to the natatorium project. The city's credit is in no way affected; no part of the natatorium debt ever can fall back on the city."

Discussion also was held by the aldermen on the feasibility of borrowing enough money from the Public Works Administration to tie up the city's "dead end" water mains into "loop" lines.

George Sandefur, manager of Hope Water & Light Plant, said if it cost \$18,000, and the government contributed 30 per cent, the interest on the 70 per cent balance at 4 per cent, plus a 4 per cent annual repayment of principal, would cost the city plant less than \$1,000 a year.

This project also may be discussed at the special council meeting Monday night.

Since June the American authorities have been studying plans for again seeking his extradition, to stand trial in Chicago.

## BEHIND THE SCENES IN Washington

Green and Hillman Scrum It Out ...  
Inflation Sentiment Growing Among Members of Congress ...  
Tydings' Journey to the Philippines ...  
Steel Big ...  
Cool Their Heads.

**BY BONNEY DUTCHER**

NEA Washington Correspondent  
**WASHINGTON**—President Green of the A. F. of L. didn't like being high-tailed by the steel barons who refused to sit with him at Secretary Perkins' conference.

But on experience the same day at the Labor Advisory Board's meeting he still wore.

At one point he even threatened to resign from the board.

The board has been secretly fighting out a bitter row between A. F. of L. United Garment Workers and Board Member Sidney Hillman's larger, more powerful Amalgamated Clothing Workers.

Amalgamated, engaged in a whirlwind organizing campaign, has called several strikes. U. G. W. has been trying to break those strikes for its own ends, through agreements with Amalgamated men call it a "lab. labor agency."

Hillman, ex-corporate Green, producing a letter which Hillman said put the A. F. of L. chief in the position of handing factory owners propaganda against Amalgamated.

The board, willing enough to disapprove the steel men's treatment of Green, exhibited a majority sentiment against his clothing strike attitude.

Green's threat to quit subsided after John Lewis of the mine workers had notified him.

**New Inflation Sentiment**

A renewed wave of inflation sentiment seems to be gathering force. Senators and congressmen are hearing about it from home and they, in turn, are becoming more articulate.

South of South Carolina, chairman of the Senate Agriculture committee, has been trying to convince Roosevelt that prompt inflation is vitally essential. He says declines in cotton prices have depressed many southern farmers.

If action is not forthcoming, Smith will try to arrange a meeting of Senate and House committee members to discuss the issue.

**Juneteer Postponed**

That little junket to the Philippines, promised by Senator Tydings of Maryland as chairman of the Territories and Insular Affairs committee, has been indefinitely postponed.

Tydings wrote half a dozen members asking them to come along. But they must keep the trip a secret. They didn't want to take too much money out of the Senate contingent fund, he explained, and there were some members of the committee they wouldn't want in the party.

North Carolina heard that Senator Reynolds was going along and he was scared out by cries of "junketeer!"

Then some uninvited committee member was Robinson of Indiana.

**Steel Chiefs Wait**

President William A. Irwin of U. S. Steel and his lawyer were waiting at NRA for Chief Counsel Don Richberg.

An official tried to entertain them with funny stories, but they said they didn't think they were receiving adequate consideration.

"Oh, yes," said the official, quickly, thinking of another 10 minutes of entertainment, "you're going to have your picture taken."

A photographer was finally located and urged to do his stuff. But the steel men still had a long wait for Richberg.

## GLORIFYING YOURSELF

**By Alicia Hart**

NEA SERVICE INC.

Don't forget your hands when you plan your fall beauty schedule.

Your hands should be white and smooth. Hand lotions and bleaching creams will go far toward improving the texture of your skin.

Poised hands are an asset to any woman. Learn to hold them quietly in your lap when you are sitting still. Don't fold and unfold them dozens of times while you are talking to someone. And don't fuss with your clothing. It is irritable to watch a woman who is constantly picking at her dress, patting her hair or rubbing the arms of the chair.

There is something restful about a girl who sits down calmly and retains her poise. Poised hands are as important as a poised body.

If you want to make your hands flexible and graceful, try pulling imaginary taffy several times a day. Bring all your fingers very close together when you move your hands in toward each other. Spread them wide when you have reached the end of the taffy. Imagine that you are shaking your hands from your finger tips. Let your hands be perfectly limp and relaxed. It stretches and relaxes all the muscles in your hands and fingers.

Never wear gloves which are too tight. Your hands won't actually look smaller and they'll be cramped and red when the gloves are removed.

**NEXT: Buying fall shoes.**

We read that Mary Pickford and Douglas Fairbanks may forget their differences and go back together. That shouldn't be difficult for two persons who have had so much experience in the art of make-up.

## Now We'll See Some Real 'Muscling In'

## Marlene Dietrich at the Saenger

**"Song of Songs" Attraction Here Sunday and Monday**

Sunday to the screen of the Saenger comes Hermann Sudermann's great literary classic, "The Song of Songs," with Marlene Dietrich as the star, who brings to local movie fans one of the most interesting films yet seen in this city.

Played with restraint by every member of the notable cast, the story of the lovely young girl who meets tragically solely because of her intense desire for love, is fine screen entertainment from the very beginning to the end. Each member of the cast contributed his bit in excellent fashion.

Miss Dietrich is especially appealing. She looks more beautiful than we have ever seen her look, and it can easily be said that "The Song of Songs" gives her her finest role to date. This is doubly impressive when one realizes that, in this picture, she plays, for the first time in her screen career, an innocent young girl who gets buffeted about by life.

The leading man, Brian Aherne, makes his screen debut with this picture. One glance at him on the screen and the spectator realizes why he has been dubbed the most romantic lover in Hollywood.

The other members of the cast are outstanding. Lionel Atwill, Alison Skipworth, Hardie Albright and Helen Freeman comprise the leaders of the supporting cast in addition to Mr. Aherne.

An "Our Gang" comedy and the latest News complete the program.

## For the LOVE of EVE by Lucy Walling

**BOOK HERE TODAY**  
EVE BAYLESS, pretty assistant to MARIE BAYLESS, advertising manager of Dixie's department store, married DICK BAYLESS, a construction superintendent. He wanted her to give up her job but she refused. Eve does not want her employers to know she is married, so they keep the marriage secret from all members of the staff. Christmas Eve, Dick, who is a clerk, is called to the office of his father, who is a banker. Dick is told that he is to be married to a girl named EVE. Dick is told that he is to be married to a girl named EVE. Dick is told that he is to be married to a girl named EVE.

**NOW GO ON WITH THE STORY CHAPTER XVIII**

EVE did not sleep well that night. She awoke several times, only to drift back into troubled dreams of Dixie's store, a stock exchange, and finally her old home. In the morning she was so quiet that Dick was worried.

"You're usually skipping about all over the place by 7:30," he said. "What's the matter? Don't you feel well?"

"I'm all right," Eve assured him. "I was just thinking. I mustn't forget to write to Mother today. It's almost a week since her last letter came."

Dick approved of the way in which Eve and her mother kept in close touch with each other. Once every week Mrs. Bayless wrote long letters, carefully written in long cramped handwriting, filled with news of the family, the relatives and Eve's old friends. And once or twice a week Eve dashed off a reply on her typewriter. Her father grumbled, "Eve's letters are too longed long for any man to read. Tell me in a few words what she said."

But when Kate Bayless received the letter Eve wrote that day she hesitated to tell her husband what it contained.

"Mother, dear," Eve had written. "I wonder if you could get from Dad the money he is keeping for me in the 'emergency fund.' You know how Esther and I always saved our pennies and nickels and put them in the little red elephant bank until there was enough to deposit down town? Dad said that when we grew up we would have that money for an emergency fund in case anything happened. So I wish he would let me have the money now for something very, very special. I don't want him or Dick to know about it but I'll let you in on the secret. I'm not going to spend the money—I'm going to invest it."

BECAUSE her daughter had asked her to do it Kate did try to get the money. But Hank Bayless remained as adamant as a rock. He refused to draw out one penny of the sum unless his wife told him what she intended to do with it.

**Spiced Pears**  
Six pounds pears, 5 cups light brown sugar, cups cider vinegar, ¼ cup broken stick cinnamon and whole cloves mixed.

Pare pears before weighing. Place in a crock alternately with layers of sugar. If the pears are quite large they should be cut in halves and cored. Pour over vinegar and let stand overnight. Drain off liquid and add the spices tied in a cheesecloth bag. Bring to the boiling point and boil five minutes. Add pears and simmer until tender but not broken or soft. Pack in hot sterilized jars and pour over boiling syrup to cover. Seal at once.

If the vinegar is very "sharp" it should be diluted with water.

**Pear Conserve**

Pour into sterilized glasses and cover with paraffine. Cover with a second layer of paraffine when cold.

Doing more harm than slander or lies;  
On it is many a strong spirit, broken,  
And with it many a good purpose dies.  
It springs from the lips of the thoughtless  
And ends in the morning

**St. Louis Epidemic Arouses U. S. Public Health Service**

ST. LOUIS, Mo.—Two new deaths from encephalitis reported Friday brought to 30 the total fatalities in the "sleeping sickness" outbreak which began July 30 with the death of a negro in Meacham park. The day's report included 25 new cases of the illness, making a total of 243, of which 183 are in the county and 60 in the city.

The sixth St. Louisian to die of the disease was Rosario Gardillo, 58, Mrs. Elizabeth Hea, 63, Gardenville, was the 24th resident of the county to succumb.

The epidemic has focused the attention of the United States Public Health Service on this territory. Most of the patients reported have been residents of that populous strip of St. Louis county which borders the city limits, but the disease is spreading increasingly throughout the city and west of the county belt highway, Lindbergh boulevard.

Resistance has seemed a major factor in the disease and health officers have mentioned plenty of rest and nourishment as important defense measures. Pending identification of the cause or agent of transmission, they have ordered isolation of patients and urged the public to observe ordinary sanitary care.

**Lemley May Get New Auditing Post**

**Hope Man Mentioned for Revived Highway Audit Commission**

LITTLE ROCK.—(AP)—A state highway audit ended abruptly last January by a commission that had furnished headlines to newspapers of the state for several months is to be resumed, shortly.

A new commission of three members—expected to be named from among the membership of the old commission—will be set up under an act of the special session of the legislature just ended.

Given a \$20,000 appropriation, the new commission will take up the work where the old commission left off when its authority under the 1931 act creating it expired with the convening of the regular session of the legislature last January.

The members of the old commission mentioned most prominently for appointment by Governor Futrell on the new audit continuation commission are Harry J. Lemley of Hope, S. M. Casey of Batesville and V. W. St. John of Mena, the first two lawyers and the latter a newspaper publisher.

Under the new act, the commission has authority to employ accountants to complete the audit of the state highway department for the period covering the state's \$100,000,000 road building program. Many of the records had not been audited when the old commission passed out of existence.

The old commission held semi-public hearings for several months, developing sensational testimony regarding the operations of the highway department.

Several indictments were returned here recently as a result of the investigation. Among those now under indictment are Dwight H. Blackwood, former chairman of the state highway commission, and C. C. Christian, former chief engineer.

Civil suits also were instituted against several contractors for recovery of alleged overpayments. The new department for the attorney general to handle any litigation growing out of the original or the continued audit.

Governor Futrell is expected to name the new commission soon and set it to work to finish the audit.

**One Suspect Killed Attempting Escape in California**

By the Associated Press  
Kidnapings, pushed into the background lately by other crimes and apparent inactivity on the part of abductors, flared back into the lime-light Friday.

In San Francisco, Henry Jennings, known also as H. S. Meek, a ferry ticket taker, was killed and two innocent persons wounded, one critically, as he attempted to escape after having held William F. Wood, cousin of President Taft, a captive for four days.

Bernard Bitterman, 28-year-old Denver department store buyer and kinsman of wealthy Denverites, was reported abducted and officers revealed they were searching for George (Machine Gun) Kelly in connection with the kidnapping. Kelly also is sought for the kidnapping of Charles F. Urschel, wealthy Oklahoma oil man.

Only a short time before H. G. (Boss) Shannon and his wife and son, held in North Worth for the Urschel abduction, were taken to Oklahoma City by plane to face charges in connection with the case. Shannon's home has been identified as the hide-out for Urschel.

Officers in Denver said Albert Bates, held in the Urschel case also, has agreed to waive extradition and return to Oklahoma City to face kidnapping charges. Harvey Bailey, reputed leader of the Urschel kidnaping already has agreed to waive extradition at Fort Worth and return to Oklahoma.

It was learned that the powerful O'Donnell brothers of New York state Democratic circles have been threatened with death by the kidnapers of their nephew, John O'Donnell Jr., because of their activity in attempting to solve the mystery of the abduction, in which a heavy ransom was paid for the young lieutenant's return.

**FRECKLES AND HIS FRIENDS** What Can a Fellow Do? By BLOSSER

A FARM BOY WALKED FROM PARADISE JUNCTION, SIX MILES AWAY, TO DELIVER AN IMPORTANT MESSAGE TO FRECKLES ABOUT SOMETHING BEING WRONG AT HOME.

GEE, FRECKLES—YOU ARENT REALLY GOING TO PACK UP AND GO HOME? WHY DONT YOU FIND OUT WHO PHONED, FIRST?

WHAT'S THE USE? SOMEBODY PHONED, AND THEY WOULDN'T DO THAT UNLESS SOMETHING WAS WRONG—IM GOING, RED!

YOU CAN STAY HERE, IF YOU WANT TO—NO USE IN YOUR VACATION BEING SPOILED ON MY ACCOUNT—GEE! I WONDER WHAT'S HAPPENED?

I WOULDN'T DO THAT—I'LL GO, TOO...BUT SNAP OUT OF IT—Mebbe IT'S NOTHING AT ALL!

SAY! WHERE IS EVERYBODY, AROUND HERE? THINGS HAVE GONE DEAD ALL OF A SUDDEN!!

FRECKLES JUST HAD A CALL TO COME HOME, PAT—THE BOYS ARE INSIDE PACKIN' UP, NOW!!

THAT'S TOO BAD—WELL, IF THEY GO, I MIGHT AS WELL LEAVE, TOO--

WE GOTTA FIND PAT AND SAY GOODBYE TO HER—ALL SET, RED!

OKAY! LET'S GO!
